

ADVANTAGES

- Compact, consistent pleat for full media utilisation
- Large media surface, long filter life
- Versatile for various applications
- Solid aluminium frame and construction
- Fully supported synthetic media bonded to frame

Application	Prevention of dust and dirt build up on heating/cooling coils within ventilation systems. Suitable for outdoor air intakes, humid environments or where intermittent exposure to mist or spray may occur. Also suitable for use as a primary filter for air conditioning applications or as a prefilter to extend the life of a secondary filter.
Frame	Aluminium
Media	Polyester
Max Temperature (°C)	80°C maximum in continuous service
Installation Options	Universal filter holding frames, Front and side access housings, Kaire kitchen exhaust unit.
Comment	Non standard sizes locally made to order.
